

Criterion 7

Performance Outcomes

- 7.1.1 Measurement Outcomes
- 7.2 Achievement of Outcomes – Student & Graduate, Service Quality, Operational, People Development

The **ARTEMIA Framework** provides a structured, data-driven approach to measuring, analyzing, and improving UCC's performance outcomes. By integrating benchmarking, targeted actions, and accountability, it ensures sustained excellence and institutional growth.

SMS - Quality Performance Outcomes Module

ATHENA
FRAMEWORK

ATHENA Framework

A	Aggregated Outcomes	- Unified summary of institutional performance across all domains (API) - Supports strategic goal-setting using consolidated metrics
T	Tactical Domains	- Tactical indexes measuring operational delivery (e.g. SEQI, SAPI, ESI) - Enables department-level monitoring and resource allocation
H	Holistic Monitoring	- Balanced Scorecard tracking all perspectives for systemic oversight - Ensures linkage between goals, risks, and performance
E	Evidence-Based Innovation	- QIPI and quality actions that drive continuous, data-backed change - Aligns innovation with audit evidence and outcomes
N	Normalised Benchmarking	- Trend comparison using target-vs-actual analytics (e.g. norm diff %) - Supports performance gap analysis and early detection
A	Adaptive Improvement	- A commitment to evolving through feedback, verification, and growth - Drives continuous enhancement across all functions

The **ATHENA Framework** supports UCC's strategic performance management by aligning governance, resource planning, compliance, resilience, and quality improvement. It enables a holistic, data-informed foundation for institutional success.

Normalisation of Data into Key Performance Metrics

By applying structured normalisation processes, we ensure that different types of data such as student feedback, training records, or system logs are **converted into consistent and comparable formats**. These standardised outputs are then used to build **key performance metrics** like SEQI or FSII, supporting **benchmarking and informed decision-making**.

*UOM = Unit of Measurement

Data Source	Performance Outcome Name	Indicator Metrics
1. Financial Perspective (Score) 2. Customer Perspective (Score) 3. Internal Processes Perspective (Score) 4. Innovation and Learning Perspective (Score) 5. CSR Impact Perspective(Score) 6. Risk Management Perspective (Score) All data are from Balanced Scorecard	Aggregated Performance Index (API) Total Score: 100  GD4 7.1.1	1. Financial (22%) 2. Customer (22%) 3. Internal Processes (22%) 4. Innovation and Learning (22%) 5. CSR Impact (6%) 6. Risk Management (6%)

Data Source	Performance Outcome Name	Indicator Metrics
1. Assessment Plan (Nos) 2. Assessment Result (Nos) 3. Quality Meeting (Nos)	Student Academic Performance Index (Overall) (SAPI) Total Score: 100  GD4 7.2.1	1. Attrition Rate (30%) 2. Passing Rate (30%) 3. Quality of Passes (20%) 4. Graduation Rate (20%)
1. End of Course Survey (5-point Likert Scale) 2. End of Module Feedback (Student) (5-point Likert Scale) 3. HD Ticket (5-point Likert Scale) 4. Module Review (5-point Likert Scale)	Student Experience Quality Index (SEQI) Total Score: 5  GD4 7.2.2	1. Reliability (20%) 2. Assurance (15%) 3. Tangibles (20%) 4. Empathy (15%) 5. Responsiveness (15%) 6. Outcome Alignment (15%)

Data Source	Performance Outcome Name	Indicator Metrics
- Audited Financial Statements (Ratio) - Credit Rating Report (Score)	Financial Sustainability Index (FSI) Total Score: 5 GD4 7.2.3	- Liquidity Ratio (35%) - Debt-Equity Ratio (35%) - Credit Rating (30%)
Quality Action	Quality & Innovation Performance Index (QIPI) Total Score: 100 GD4 6.3.1/7.2.3	QIPI (100%)

Data Source	Performance Outcome Name	Indicator Metrics
- Staff Onboarding Survey (5-point Likert Scale) - Staff Survey (5-point Likert Scale) - Exit Interview (5-point Likert Scale)	Employee Satisfaction Index (ESI) Total Score: 5  GD4 7.2.4	- Staff Satisfaction Index (20%) - HR Policy Effectiveness Index (15%) - Professional Development Impact Index (15%) - Resource and Facility Adequacy Index (10%) - Staff Engagement Index (15%) - Staff Turnover Index (10%) - Communication Effectiveness Index (10%) - Teaching and Learning Resources Index (3%) - Assessment Strategies and Alignment Index (2%)

Data Source	Performance Outcome Name	Indicator Metrics
1. Employee Training Hour (Hour) 2. Staff Survey (5-point Likert) 3. Training Needs Analysis (%) 4. Exit Interview Survey (5-point Likert) 5. Training Feedback (5-point Likert) 6. Appraisal (Score)	Training Effectiveness Index (TEI) Total Score: 5 (Likert Score)  GD4 7.2.4	1. Training Needs Alignment (10%) 2. Training Participation Score (15%) 3. Training Satisfaction Score (15%) 4. Knowledge Retention Rate (20%) 5. Application of Skills (25%) 6. Training ROE (15%)

Key Performance Indices & What They Measure

Category	Index Used	What It Measures
Overall Performance	Aggregated Performance Index (API)	Measures improvements across various metrics to assess overall efficiency. (GD7.1.1)
Academic Performance	Student Academic Performance Index (SAPI)	Tracks student success through attrition, passing, graduation rates, and quality of passes. (GD7.2.1)
Customer & Student Experience	Student Experience Quality Index (SEQI)	Evaluates student satisfaction with teaching, facilities, and support services. (GD7.2.2)
Financial Health	Financial Sustainability Index (FSI)	Evaluates liquidity, debt-equity ratio, cost savings, and investment. (GD7.2.3)
Quality & Innovation	Quality & Innovation Performance Index (QIPI)	Measures the volume, impact, and completion rate of quality-improvement and innovation projects. (GD6.3.1/7.2.3)
Workforce & HR	Employee Satisfaction Index (ESI)	Measures staff morale, engagement, policies, and workplace environment. (GD7.2.4)
Training & Development	Training Effectiveness Index (TEI)	Assesses skill development, retention, and job performance impact of training programs. (GD7.2.4)
