Survey Name	: Graduate and Alumni Survey v.02	Survey Version No	: 02
Department	: Student Success and Outreach (SSO) - UCC	Posting Date	: 16 June 2025

Survey Description

This survey is designed as a focused continuation of our End of Course Survey, specifically tailored to capture detailed insights from the POST-GRADUATION OUTLOOK AND FEEDBACK section. This specialized survey aims to gather comprehensive feedback from our graduates about their post-graduation experiences, focusing primarily on Student and Graduate Outcomes. It examines the effectiveness of the curriculum, the relevance of the skills acquired during their studies to their current professional roles or further education, and their overall transition from students to alumni. This targeted approach ensures that UCC can closely monitor and enhance the effectiveness of its educational offerings and support systems to better align with the career trajectories and further educational pursuits of its graduates.

In addition to collecting data on the immediate post-course plans of graduates, such as entering the workforce, further studies, or starting business ventures, the survey also seeks detailed feedback on the graduates' employment statuses, the industries they have entered, and their job satisfaction. This allows UCC to refine its approaches to teaching and support, ensuring that the college remains responsive to the needs of its alumni and maintains high standards of academic excellence and student support.

This survey design aligns with GD4 requirements, specifically Student and Graduate Outcomes (7.2.1)
